

THE SPRAYIT SOLUTIONS EXPERIENCE

Every message a customer receives, from the first enquiry to a year after the job

What lands in their inbox and on their phone at each stage, in the words they will actually read. Under every message is what happens behind the scenes: the alert that reaches your team, and the task that keeps the job moving.

14 stages on each board

63 messages

39 emails

24 texts

54 tasks

14 alerts

01 RESIDENTIAL · NEW LEAD

The first fifteen minutes

A lead has landed. Nobody has rung them yet.

The moment someone sends the form, two things go before anyone has read it: a text saying we have the enquiry and will ring shortly, and an email that plays back what they told us and explains what happens next. Then the clock starts. If no call is logged within fifteen business minutes, the office gets an email. Ring twice, back to back. If they answer, the call decides where the card goes: someone who wants a quote goes to Quoting, where it is handed to the owner to write; a request to ring back later goes to Follow-Up; and not now goes to Nurture. If neither call is answered, the card goes to Dial 1.

SUBJECT

We have your enquiry, Emma

Hi Emma,

Thanks for getting in touch with **SprayIT Solutions**. We have your enquiry and we will ring you shortly. During business hours that is usually within the hour.

Here is what you told us:

Property

Home

Needs doing

Underfloor, Roof or ceiling

Building stage

Existing building (retrofit)

Timeframe

Next 1 to 3 months

Postcode

3930

If any of that is wrong, reply to this email and we will fix it.

What happens next:

1. We ring you for a short chat about the building and what you want from it.

2. We send you a written quote, usually within **2 business days** of the call. There is no obligation.

3. Once you are happy with the quote, we book the install date.

We quote from the call. If a job needs a look in person, we quote it first so you know the price, and visit once you are happy with it, before the install is booked.

Rachael Angus

SprayIT Solutions

0428 26 36 26

Echoing their answers back cuts "did that go through?" replies and catches a wrong postcode before it costs anyone a trip. It does not promise a site visit, because only about one job in ten or twenty needs one, and that visit comes after the quote is accepted.

ALERTS THAT INTERRUPT

ACT NOW **New enquiry** · The office, by Email and in-app

A website enquiry has been created and assigned to the office. The message carries their name, number, property type, what needs doing, timeframe, postcode and where they came from, so it can be acted on without opening the CRM.

Fires when: a new enquiry has just come in.

NEW LEAD: Emma Walsh
0412 345 678
Home / Underfloor, Roof or ceiling
Next 1 to 3 months / 3930
Source: google

ACT NOW **New lead not called after 15 minutes** · The office, by Email and in-app

A new lead has been on the board for fifteen business minutes and no call has been logged against it. It names the lead and the time it arrived, so whoever picks it up can ring straight away.

Fires when: a new lead has waited 15 minutes without a call.

NOT CALLED YET: Emma Walsh, 0412 345 678
Arrived 9:40am. Fifteen minutes and no call logged.
Ring them now.

TASKS THAT PERSIST UNTIL CLOSED

CALL Emma: new lead, Underfloor, Roof or ceiling

THE OFFICE Due: 15 minutes

Ring the new lead within 15 minutes. The acknowledgement text and email have already gone. Ring twice, back to back. No answer to either: move the card to Dial 1. If they answer and want a quote, move the card to Quoting, which hands it to the owner to write the quote. Ring back later: Follow-Up. Not now: Nurture.

Escalation. 15 minutes with no call logged: an email to the office. 1 hour: a text and an email to the owner. Next morning: top of the daily summary until a call is logged. Business hours only, so a midnight enquiry starts its clock at 7am.

Two calls, then a text

Rung twice back to back with no answer. A text has gone.

Most people will not answer a number they do not know, and most of them will reply to a text. So about ten seconds after the card lands here, while the missed calls are still on their screen, a text goes saying we just tried to call and they can reply or ring back. Later the same day there is a second round of calls. If they answer or reply, the card moves on the same way as from New Lead. If the second round gets nothing, the card goes to Dial 2.

MOVES ON WHEN

They answer or reply, or the second round of calls gets nothing

FLAG IT AFTER

End of the same day

Most people will not answer a number they do not know, and most of them will reply to a text. So it goes about ten seconds after the second call, while the missed calls are still on their screen.

BEHIND THE SCENES · WHAT YOUR TEAM SEES

ALERTS THAT INTERRUPT

ACT NOW

Inbound reply · Whoever owns the job, by Email and in-app to the office, or SMS and email to the owner

A customer has replied by text. Every sales sequence on that contact pauses the moment it arrives, so nothing automatic talks over a live conversation.

Fires when: a customer has replied to a message.

REPLY from Emma: "Yes, Thursday works. Call after 10."

TASKS THAT PERSIST UNTIL CLOSED

CALL Emma: second round of calls

THE OFFICE Due: Later the same day

Second round of calls, at a different time of day from the first. Ring twice back to back again. If they answer, move the card on as from New Lead. If not, move it to Dial 2, which starts the follow-up emails.

Three emails, then an honest close

Two rounds of calls with no answer. The emails are running.

Calls have not worked, so this stage switches to email. Day 2 is a short check-in. Day 4 offers a time to talk, with a link to book a phone call at a time that suits them. Day 7 says plainly that we are closing the enquiry off and nothing is lost, which is the message people answer. Any reply or booking stops the sequence. If day 7 passes with nothing, the card goes to Lost with the reason Unreachable, so it never sits here forever. Anyone who books the phone call, from the email or the website, gets the confirmation and reminders below.

Used for the phone call and the site inspection. The appointment title says which.

ALERTS THAT INTERRUPT

ACT NOW **Inbound reply** · Whoever owns the job, by Email and in-app to the office, or SMS and email to the owner

A customer has replied by text. Every sales sequence on that contact pauses the moment it arrives, so nothing automatic talks over a live conversation.

Fires when: a customer has replied to a message.

REPLY from Emma: "Yes, Thursday works. Call after 10."

GOOD TO KNOW

Phone call booked · Whoever owns the job, by Email and in-app to the office, or SMS and email to the owner

Somebody has booked a phone call from the day 4 email or the website. It is in the diary and the confirmation has gone, so the point of the alert is to read their enquiry before ringing.

Fires when: a customer has booked a phone call.

BOOKED: Emma, Thursday 25 September, 10:00am. Read the enquiry before the call.

HEADS UP

Phone call or inspection cancelled · Whoever owns the job, or the owner for an inspection, by Email and in-app to the office, or SMS and email to the owner

A booked phone call or site inspection has been cancelled. A phone call goes to whoever owns the job; an inspection goes to the owner, who rebooks it. Nothing is rebooked automatically.

Fires when: a customer has cancelled a phone call or a site inspection.

CANCELLED: Emma, Phone call with SprayIT Solutions, Thursday 25 September, 10:00am. Ring them to rebook.

TASKS THAT PERSIST UNTIL CLOSED

CALL Emma: one more try

THE OFFICE Due: Day 4

One more call on the day the booking email goes. They have had a text and two emails, so keep it short: you are ringing about their enquiry and can talk whenever suits. Log it on the card either way.

Handed to the owner to quote

The office has spoken to them and they want a quote. It is waiting on the owner.

Once the office has spoken to someone and they want a quote, the card moves here and is assigned to the owner, who gets a text and an email straight away. That way everyone can see the job is waiting on the owner to sort out the quote. The owner often rings them first for a little more detail, or waits for plans or an energy report, then writes the quote and sends it from the quote tool, which moves the card to Quote Sent by itself. Nothing automatic goes to the customer here: they were told on the call when to expect the quote.

MOVES ON WHEN

The quote is sent, or they ask to be rung later, say not now, or go elsewhere

FLAG IT AFTER

2 business days

WHERE THE SALE IS

Still winning the job

No automated message at this stage. This one is a conversation, and an email from a workflow would be noise in it. What the team does here is below.

BEHIND THE SCENES · WHAT YOUR TEAM SEES

ALERTS THAT INTERRUPT

ACT NOW

Assigned to you · Whoever it is assigned to, by SMS and email to the owner, email to the office

A card has been assigned to someone, or a task has been created for the owner. The commonest case is the office handing a lead to the owner in Quoting. It names the job and what is waiting, so it can be dealt with that day. Where another alert already carries the same news, this one does not fire again.

Fires when: a job or a task has been handed to you.

ASSIGNED TO YOU: Emma Walsh, Mount Eliza,
0412 345 678
QUOTE Emma: write and send the quote

TASKS THAT PERSIST UNTIL CLOSED

QUOTE Emma: write and send the quote

THE OWNER Due: 2 business days

The office has spoken to them and they want a quote. Ring them first if you need more detail, plans or an energy report. Write the quote in the quote tool, with each option as its own line if there is more than one, and send it. Sending it moves the card to Quote Sent and starts the follow-up.

A number they can accept with one click

A written quote is with them, with accept and decline buttons.

The quote goes by email with a link to view it online, where the customer can accept or decline it with one click. If the job was quoted more than one way, open cell or closed cell, or two thicknesses, each option has its own accept button and the card records which one they chose. A text says it has arrived. Then the follow-up runs by itself: a text on day 2, the email on day 5 that explains why two quotes for the same job can look nothing alike, a one-line question on day 10, and on day 21 an honest note that we will close it off. Accepting online moves the card to Quote Accepted by itself. Declining closes it as Lost and sends a short thank-you. A yes on the phone, or a purchase order, is moved by hand.

MOVES ON WHEN

They accept, decline, ask to be rung later, or go quiet past day 21

SUBJECT

Your quote from SprayIT Solutions

Hi Emma,

Your quote is ready. Quote number Q-1042.

View it, and accept or decline it online, here: [view and accept your quote](#)

It covers Underfloor, Roof or ceiling at 22 Ranelagh Drive, Mount Eliza VIC 3930. If we have quoted more than one option, for example open cell or closed cell, or two different thicknesses, each option has its own accept button. Accept the one you want.

A few things worth saying plainly:

- The price includes everything. No separate charge for access, setup or clean-up.
- It is valid for 30 days, mostly because material costs move.
- Accepting online is all it takes. A yes on the phone works too.
- If anything in it does not make sense, ring us. We would rather explain it than have you accept something you are unsure about.

Any questions at all, 0428 26 36 26.

SUBJECT
Why our number might look different

Hi Emma,

If you are comparing quotes, one thing is worth knowing, because it is the reason two numbers for the "same" job can look nothing alike.

Insulation is sold on R-value, and R-value is measured on a flat, perfect, uninterrupted sample. Nothing in that test involves a stud, a pipe, a downlight, an untidy edge or wind.

A real wall has all of those. Cut products leave edges, edges leave gaps, and air moves through gaps carrying heat with it. That path is not in the rating at all, which is why two walls rated the same can feel completely different to live in.

We wrote the whole thing up here, with a diagram: sprayitsolutions.com.au/what-is-spray-foam/#r-value

Not trying to talk you out of anything. Just make sure you are comparing the finished wall, not the number on the bag.

Rachael Angus

Thanks for considering us, Emma

Hi Emma,

Thanks for giving us the chance to quote on 22 Ranelagh Drive, Mount Eliza VIC 3930. If you went another way, we hope it goes well.

If the timing changes, or the job grows, reply to this and we will pick it up where we left off. We keep the details, so it will not start from scratch.

Rachael Angus
SprayIT Solutions
0428 26 36 26

A graceful goodbye is the cheapest marketing there is. A surprising number of "went with someone else" jobs come back after the other quote falls over.

ALERTS THAT INTERRUPT

ACT NOW **Inbound reply** · Whoever owns the job, by Email and in-app to the office, or SMS and email to the owner

A customer has replied by text. Every sales sequence on that contact pauses the moment it arrives, so nothing automatic talks over a live conversation.

Fires when: a customer has replied to a message.

REPLY from Emma: "Yes, Thursday works. Call after 10."

TASKS THAT PERSIST UNTIL CLOSED

CALL Emma: quote follow up

THE OFFICE Due: Day 2

Ring two days after the quote went out. Ask whether it arrived and whether anything needs explaining. This one call converts more quotes than the whole automated sequence.

DECIDE Emma: accepted, nurture or lost

THE OFFICE Due: Day 21

Twenty-one days with no decision. Move the card: Quote Accepted if they said yes, Nurture if it is a real job at the wrong time, Follow-Up if they asked for a call later, or Lost with a reason if they went elsewhere. Never leave it sitting.

They asked us to ring back

A conversation is live and the customer has asked for a call at a later time.

For the customer who says "ring me next week", "call back after I have spoken to my partner", or "I will send you the plans". Nothing automatic goes to them here: every sequence on the card is paused, because a call at the time they chose is a better next step than another email. The time they asked for goes on the card, and a task lands at that time. After the call, the card moves on: to Quoting if they now want a quote, Quote Accepted if they say yes, Nurture if it is not now, or Lost. If a quote is already with them and they want more time, set a new callback time and leave the card here.

MOVES ON WHEN

The callback happens and the card moves on

BEHIND THE SCENES · WHAT YOUR TEAM SEES

ALERTS THAT INTERRUPT

ACT NOW

Inbound reply · Whoever owns the job, by Email and in-app to the office, or SMS and email to the owner

A customer has replied by text. Every sales sequence on that contact pauses the moment it arrives, so nothing automatic talks over a live conversation.

Fires when: a customer has replied to a message.

REPLY from Emma: "Yes, Thursday works. Call after 10."

TASKS THAT PERSIST UNTIL CLOSED

CALL Emma: callback as asked

THE OFFICE Due: At the time they asked

The customer asked to be rung at this time. Ring them, then move the card on: Quoting if they now want a quote, Quote Accepted if they say yes to a quote already sent, Nurture if it is not now, or Lost with a reason. Want more time on a quote? Set a new callback time.

Right job, wrong time

A real job that is not happening now: not now, or not affordable yet.

A siding, not a step. Cards come here from the first call or from a quote that went quiet, when the answer is "not now" or "we cannot afford it yet". Quotes from here regularly come back after a year or two, so the card is kept rather than closed. Three emails go over three months, then a note at twelve months offering to refresh the quote. All four are marketing, so they only go to people who ticked the box on the form, and every one has an unsubscribe. Everyone in Nurture also gets a call at twelve months, whether or not they ticked the box. When they come back, the card moves to Quoting so the owner can refresh the price.

MOVES ON WHEN

They come back: to Quoting for a fresh quote

SUBJECT

A year on from your quote

Hi Emma,

It is about a year since we quoted on 22 Ranelagh Drive, Mount Eliza VIC 3930, quote Q-1042. Plenty of jobs come back around after a year or two, once the budget or the timing changes.

If yours has, reply to this email and we will refresh the quote against current material prices. If nothing about the building has changed, that is usually quick.

If it is off the table for good, unsubscribe below and we will stop writing.

Rachael Angus**SprayIT Solutions****0428 26 36 26**[Unsubscribe](#)

Quotes from Nurture regularly come back after one or two years. Everyone in Nurture also gets a call at twelve months, whether or not they opted in to email.

BEHIND THE SCENES · WHAT YOUR TEAM SEES

ALERTS THAT INTERRUPT

ACT NOW **Inbound reply** · Whoever owns the job, by Email and in-app to the office, or SMS and email to the owner

A customer has replied by text. Every sales sequence on that contact pauses the moment it arrives, so nothing automatic talks over a live conversation.

Fires when: a customer has replied to a message.

REPLY from Emma: "Yes, Thursday works. Call after 10."

TASKS THAT PERSIST UNTIL CLOSED

CHECK-IN Emma: a year since the quote**THE OFFICE** Due: 12 months

A year since this job went to Nurture. Ring and ask whether it is back on. Quotes often come back after one or two years. If it is, move the card to Quoting so the quote is refreshed against current prices.

REVIEW Emma: still a fit?**THE OWNER** Due: Quarterly

Quarterly review of the nurture list. Remove anyone who is not a real job, and move anyone who has come back to Quoting. A clean list keeps the emails landing in inboxes rather than in spam.

The moment they say yes

They have accepted a quote, online, by phone or with a purchase order.

The accept button moves the card here by itself. A yes on the phone, or a purchase order, is moved here by hand. Arriving here marks the job Won, stops every sales message on the card, and thanks the customer with what happens next: the install date first, reminders before the job, and the deposit invoice closer to the date, not now. The owner and the office are both told. If the job needs a look at the site before it is booked, the card goes to Inspection Required, otherwise straight to Booking Required. A second quote on a job that is already under way, say floor protection or window sealing, does not bring a card back here: the system recognises the active job and only tells the office to update the value.

MOVES ON WHEN

An inspection is needed, or the install date is ready to book

FLAG IT AFTER

1 day

To **Emma Walsh** <emma.walsh@example.com>

SUBJECT

Thanks for going ahead, Emma

Hi Emma,

Thanks for accepting quote Q-1042. Here is how it runs from here.

1. We book your install date and confirm it with you by text and email.
2. We remind you before the job, a week out and two days out, and a month out if it is booked well ahead, and ask you to confirm the date still works.
3. Where a deposit applies, the invoice comes about two weeks before the job, not now.
4. The crew arrives on the day and does the work. The final invoice follows when the job is complete.

If anything needs checking on site before we book, we will ring you to arrange that first.

Anything at all in the meantime, ring 0428 26 36 26.

Rachael Angus
SprayIT Solutions
0428 26 36 26

Deliberately no deposit request. A job accepted today might be installed in three months, and a deposit invoice that early sits unpaid and confuses everyone.

Sends once per job. Not sent for an add-on quote. Sent straight away.

BEHIND THE SCENES · WHAT YOUR TEAM SEES

ALERTS THAT INTERRUPT

WIN

Quote accepted · The owner and the office, by SMS and email to the owner, email and in-app to the office

A card has reached Quote Accepted, from the accept button or moved by hand. It names the job, the value and the option chosen, and it is the signal to decide on an inspection and book the install date. Add-on quotes on a job already under way do not fire it.

Fires when: a customer has accepted a quote.

QUOTE ACCEPTED: Emma Walsh, Mount Eliza, \$6,400
Option: Option A, open cell, underfloor and ceiling
Next: inspection or install date.

TASKS THAT PERSIST UNTIL CLOSED

NEXT Emma: inspection or booking

THE OWNER Due: Same day

The customer has accepted. Check the option they chose is on the card, then decide the next step: move the card to Inspection Required if something needs checking on site first, otherwise to Booking Required so the install date can be booked.

A look at the site before booking

They have accepted, and the site needs a look before the install is booked.

Only about one job in ten or twenty needs this, and it always comes after the quote is accepted. Most jobs are quoted from the phone call. Where the area is uncertain, the quote covers the worst case so the customer knows the most they will pay, and once they are happy with it we come and look. The visit goes in the inspection calendar, which sends a confirmation with the address and a text on the morning. Our own people go to the site, so there is nothing here about the customer not turning up. If the customer cancels, the owner is told and rebooks it by hand. Whoever attends records the area, the foam and the access on the card before leaving. If the job can go ahead, the card moves to Booking Required. If it cannot, it is closed as Lost.

MOVES ON WHEN

The visit is done: Booking Required, or Lost if the job cannot be done

BEHIND THE SCENES · WHAT YOUR TEAM SEES

ALERTS THAT INTERRUPT

HEADS UP

Phone call or inspection cancelled

· Whoever owns the job, or the owner for an inspection, by Email and in-app to the office, or SMS and email to the owner

A booked phone call or site inspection has been cancelled. A phone call goes to whoever owns the job; an inspection goes to the owner, who rebooks it. Nothing is rebooked automatically.

Fires when: a customer has cancelled a phone call or a site inspection.

CANCELLED: Emma, Phone call with SprayIT Solutions, Thursday 25 September, 10:00am.

Ring them to rebook.

TASKS THAT PERSIST UNTIL CLOSED

BOOK Emma: site inspection

THE OWNER

Due: 2 days

Book the site inspection in the inspection calendar from the card, at a time that suits the customer. Confirm the address and access to the areas being sprayed. The confirmation and the morning text go by themselves.

ATTEND Emma: inspection, 22 Ranelagh Drive, Mount Eliza VIC 3930

THE ESTIMATOR

Due: On the date

Attend the inspection. Before you leave, record on the card: the area in square metres, the foam type, access notes, and anything that will slow the crew down. Then move the card to Booking Required, or close it as Lost if the job cannot be done.

SprayIT Solutions, customer journey

23 of 89

Book the install date

Accepted, inspected if needed, and ready for an install date in the calendar.

Kept separate from Quote Accepted because an inspection can sit between them, and because accepting a quote does not mean a date has been set. There is one install calendar per vehicle: the InjectaCore rig, the van, the Fuso truck and the Mercedes rig. A job can run over several days and can use two rigs on different days, so each block is booked in the right vehicle's calendar. The owner books the install in the platform first, because the booking is what moves the card to Job Booked and starts everything that follows: the confirmation, the preparation notes, the reminders and, on jobs that take one, the deposit invoice. Once it is booked, it shows in the owner's Apple calendar too, and moving it in either place moves it in both.

MOVES ON WHEN

The install is booked in the calendar

FLAG IT AFTER

2 business days

WHERE THE SALE IS

Won, job underway

No automated message at this stage. This one is a conversation, and an email from a workflow would be noise in it. What the team does here is below.

BEHIND THE SCENES · WHAT YOUR TEAM SEES

ALERTS THAT INTERRUPT

Nothing here interrupts anyone. This stage waits for the daily summary.

TASKS THAT PERSIST UNTIL CLOSED

BOOK Emma: install date

THE OWNER Due: 2 business days

Book the install in the calendar for the vehicle doing the job: the InjectaCore rig, the van, the Fuso truck or the Mercedes rig. A job over several days or using two rigs gets a booking for each block. Book it here first, not in the Apple calendar, because the booking is what sends the confirmation and sets up the reminders and the deposit.

In the diary, and confirmed before the day

An install date is booked in the calendar.

The booking sends a text and an email with the date and the preparation list: clear access, move what you would rather not have dust near, parking close for the rig, pets elsewhere, someone over eighteen to let us in. If the job was booked more than six weeks ahead, an email a month before asks whether it is still on schedule. Seven days before and again 48 hours before, a reminder goes by email and text. Each of these has two buttons: yes, the date still works, or no, it does not. A no tells the team straight away and thanks the customer, and somebody rings to rearrange. The crew and the rig are moved by a person, never automatically. On the morning a text says the crew is on the way. On jobs that take a deposit, a draft deposit invoice is prepared two weeks before the date for the owner to check and send, and sending it moves the card to Deposit Requested.

MOVES ON WHEN

The deposit invoice is sent, or the crew marks the job complete

SUBJECT

Your job is booked for Monday 13 October

Hi Emma,

You are in the diary.

Date **Monday 13 October**
Where **22 Ranelagh Drive, Mount Eliza VIC 3930**
Crew **DJ**

We will check in before the job, and ask you to confirm the date still works.

To help us get in and out cleanly, before we arrive:

- Clear access to **Underfloor, Roof or ceiling**. We need room to work and to get the hose through.
- Move anything you would rather not have dust near.
- Make sure we can park close. The rig runs off the truck.
- Pets somewhere else for the day, please.
- Somebody over 18 on site to let us in.

While we are spraying, the area needs to be empty of people and pets. Afterwards the space needs time before you use it again. That is anywhere from about an hour to a full day depending on which foam the job calls for, and the crew will tell you which applies to yours before they leave.

Anything you are unsure about, ring **0428 26 36 26**.

SprayIT Solutions
1300 177 729

Worth checking this list with the crew rather than the office, because the crew know what actually goes wrong on arrival. Re-occupancy is product dependent: as little as an hour for some foams, up to 24 hours for others, so the crew give the figure on the day.

IF THEY TAP NO

TEXT **Straight away** · They tap No on a reminder

Sends once per booking. Sent straight away.

Nothing is moved automatically. A person rings, agrees the new date, and moves the crew and the rig.

ON THE MORNING

TEXT **6:30am on the job date** · Job day

Sends once per job day. Cancelled if the booking moves. Sent straight away.

CREW QUICK-SEND

Manual. Saved as a snippet in the mobile app so it is one tap, not a typed apology.

TEXT **SENT BY HAND** **Sent by the crew, from a saved template** · Crew running late

Manual. One tap from the mobile app. Sent straight away.

Not automated. A saved snippet the crew can send from the app in one tap, because the alternative is a customer standing at the window at 7:30 wondering.

ALERTS THAT INTERRUPT

ACT NOW **Customer cannot make the booked date** · The owner and the office, by SMS and email to the owner, email and in-app to the office

A customer tapped No on one of the reminders before the job. It names the job, the date and the address. Nothing is rescheduled automatically: the team rings the customer, agrees a new date, and moves the crew and the rig by hand.

Fires when: a customer has said the booked date no longer works.

CANNOT MAKE IT: Emma Walsh, 0412 345 678
Booked Monday 13 October, 22 Ranelagh Drive, Mount Eliza VIC 3930
Ring them today. Crew and rig need moving by hand.

TASKS THAT PERSIST UNTIL CLOSED

RESCHEDULE Emma: cannot make Monday 13 October

THE OWNER Due: Same day

The customer tapped No on a reminder. Ring them today, agree a new date, then move the booking in the install calendar and move the crew and the rig to match. Nothing is rescheduled automatically. The reminders re-queue against the new date.

CALL Emma: date not confirmed

THE OFFICE Due: Day before the job, if neither reminder was answered

Neither the 7 day nor the 48 hour reminder got a Yes or a No. Ring to confirm the job is still on, that access is clear, and that someone over eighteen will be there to let the crew in.

The deposit, timed to the job

The deposit invoice is out. The job is booked and waiting for its date.

Deposits are not sent at booking, because a job booked months ahead would sit on an unpaid invoice for months. Two weeks before the install date, or straight away if the job is less than two weeks out, a draft deposit invoice is prepared from the accepted quote, with the quote attached, and the owner gets a task to check it and send it. Nothing goes to the customer until the owner presses send. It is due one business day before the job for stock open cell foam, and seven days before for special-order foam, because that material is made and shipped for the job and is only ordered once the deposit lands. Xero sends its own reminders, so there is no extra reminder before the due date. If it is still unpaid at 4pm on the due date, a text asks the customer for the remittance and the owner and the office are told, in time to move the crew if it does not arrive. Nothing is charged to a card automatically. Jobs that take no deposit skip this stage.

Deposit for your job on Monday 13 October

Hi Emma,

Your deposit invoice is attached for the work booked at 22 Ranelagh Drive, Mount Eliza VIC 3930 on Monday 13 October.

Deposit \$1,000

Due Friday 10 October

Your accepted quote is attached as well. It carries the terms and conditions.

Most deposits are due the business day before the job. If your foam is a special order, the deposit is due a week before, because that material is made and shipped for your job.

Payment details are on the invoice. When it lands we send a one-line confirmation, so there is no need to ring and check.

SprayIT Solutions

1300 177 729

Never at booking. A draft is prepared two weeks before the install date, which is when Glenn said on the call he generally sends deposit invoices, and the owner checks it and sends it. A job booked months ahead never sits on an unpaid invoice.

UNPAID AT 4PM ON THE DUE DATE

TEXT 4:00pm on the due date · Deposit unpaid at its due date

Sends once. Not sent if the deposit is marked paid before 4pm. Sent during business hours.

No reminder before the due date: Xero already sends its own. This goes only when the deposit is actually late, at the same moment the team is told, so nobody has to type it.

WHEN IT LANDS

TEXT Immediately · Deposit invoice marked paid

Sends once. Only on jobs where a deposit applies. Sent during business hours.

Silence after a payment is the thing customers hate most. This is one line and it stops the "did you get it?" call.

ALERTS THAT INTERRUPT

WIN **Deposit received** · The owner and the office, by SMS and email to the owner, email and in-app to the office

A deposit invoice has been marked paid. The customer has had a one-line confirmation. On special-order foam this is the signal to order the material, which is only ordered once the deposit lands.

Fires when: a deposit has arrived.

DEPOSIT IN: Emma, \$1,000. Job on Monday 13 October is secure. Special order? Order the foam now.

HEADS UP **Deposit unpaid at its due date** · The owner and the office, by SMS and email to the owner, email and in-app to the office

A deposit has reached 4pm on its due date without being paid. The customer has just had a text asking for the remittance. It names the job, the amount and the install date, so the owner can decide in time whether the crew holds the date or goes to another job.

Fires when: a deposit is due today and has not arrived.

DEPOSIT UNPAID: Emma Walsh, Mount Eliza, \$1,000 Due Friday 10 October. Job booked Monday 13 October.
The customer has been texted. Decide whether the crew holds.

TASKS THAT PERSIST UNTIL CLOSED

INVOICE Emma: check and send the deposit invoice

THE OWNER Due: 2 business days

A draft deposit invoice is ready, made from the accepted quote with the quote and any purchase order attached. Check the amount, the due date and the payment terms, then send it. Sending it emails the customer and moves the card to Deposit Requested. Nothing is sent until you do.

CHASE Emma: deposit unpaid

THE OWNER Due: On the due date, if unpaid

The deposit was due today and has not landed. The customer has had a text asking for the remittance. Check for a reply; if it will not arrive in time, move the crew to other work and tell the customer.

Done, invoiced, then the paperwork

The crew has marked the job complete. The final invoice is being checked and sent.

The crew marks the job complete from the app once the photos are on the card. A thank-you note goes to the customer straight away. At the same moment a draft final invoice is prepared from the accepted quote, with the payment schedule, the balance after any deposit, and the accepted quote and any purchase order attached, and the owner gets a task to check it, adjust it for the area measured on the day, and send it. The reminders at day 7 and day 14 start only once it is sent, and stop the moment it is paid. The owner also gets a task to decide whether to ask for a Google review: it is Yes unless set to No. The job report, with photos and the certificate of completion for the building surveyor, goes only once the final invoice is fully paid. Four weeks after the job, a text asks how it is going and for a review, if the answer was Yes. Once paid, the card closes as Won, unless a retention is being held.

MOVES ON WHEN

The final invoice is paid

SUBJECT

All done at 22 Ranelagh Drive, Mount Eliza VIC 3930

Hi Emma,

The job is finished. Thanks for having us.

What we did:

- Underfloor, Roof or ceiling, using open cell foam
- 140 sqm

Living with it:

- There is nothing to maintain. It does not settle, sag or need topping up.
- If you ever cut into it for a new downlight or a pipe, seal it back up. An opening in a sealed layer costs more than the same opening in an unsealed one.
- You may notice the place holds temperature longer and is quieter. Both are the foam doing its job.

The final invoice is on its way separately. Once it is paid, we send your job report, with photos of the work and the certificate of completion your building surveyor may ask for.

Rachael Angus

SUBJECT

A year on, how is it going?

Hi Emma,

It has been about a year since we did the work at 22 Ranelagh Drive, Mount Eliza VIC 3930. No agenda here, we just like knowing how jobs hold up.

If anything is not as you expected, tell us and we will come and look.

And if you have taken on more of the building since, the rest of it is usually easier the second time, because we already know the place.

ALERTS THAT INTERRUPT

ACT NOW **Negative review or complaint** · The owner, by SMS and email

A review under four stars, or a contact tagged as a complaint. It carries the rating and the reviewer, so the call can be made the same day.

Fires when: a review under four stars, or a complaint, has come in.

REVIEW 2 stars from A. Customer. Call them today.

TASKS THAT PERSIST UNTIL CLOSED

PHOTOS 22 Ranelagh Drive, Mount Eliza VIC 3930

THE CREW LEAD Due: Before marking it complete

Photograph the finished work from the app before leaving site, and tick Photos captured. The job cannot be marked complete without them. They go into the job report, and they are the only real proof-of-work images the business has.

VARIATIONS Emma: record any extras

THE CREW LEAD Due: Before marking it complete

Anything agreed on site that was not in the quote, such as an extra 100 sqm, goes out from the variation document for the customer to sign, and onto the card the same day. Left to invoicing, it surprises the customer.

INVOICE Emma: check and send the final invoice

THE OWNER Due: 2 business days

The job is marked complete and a draft final invoice is ready: the balance after any deposit, with the payment schedule and the accepted quote and any purchase order attached. Adjust it for the area actually sprayed, with a variation invoice or a credit, then send it. Sending it starts the payment reminders.

REVIEW Emma: ask for a Google review?

THE OWNER Due: 7 days

The job is marked complete. Leave Ask for Google review on Yes, or set it to No on the contact for a job that had problems or a repeat commercial client such as Bondor or Australian Housing. Yes sends one text four weeks after the job. No sends no review request and no referral email.

CHASE Emma: payment overdue

THE OFFICE Due: Day 14 after it is sent

Fourteen days since the final invoice was sent, and it is unpaid. Ring rather than email: most late invoices are a question, not a refusal. Mark it paid the moment the money lands, which stops the reminders dead.

SEND Emma: job report and certificates

THE OWNER Due: Same day as payment

The final invoice is paid. Send the job report from the saved template today, with the photos and the certificate of completion attached, then stamp Job report sent on the card. It never goes before the invoice is fully paid.

The money held back

Part of the payment is being held back until a defects period ends.

Rare on a house, but it happens when a builder holds back part of the payment until a defects period ends. This stage is run by hand. The amount and the release date go on the card when the rest of the job is paid, and a task lands on the release date to send the claim. Once the retention is paid, the card closes.

SUBJECT

Retention release, 22 Ranelagh Drive, Mount Eliza VIC 3930

Hi Emma,

The retention period on 22 Ranelagh Drive, Mount Eliza VIC 3930 ended on Wednesday 13 October 2027. Our claim for the retention of \$640 is attached, with the original invoice and your purchase order for reference.

If anything needs to happen before it is released, a defects inspection or a sign-off, tell us and we will arrange it.

Rachael Angus

SprayIT Solutions

0428 26 36 26

A retention can sit for six to twelve months, which is long enough to forget it. The task on the release date is what stops that.

BEHIND THE SCENES · WHAT YOUR TEAM SEES

ALERTS THAT INTERRUPT

Nothing here interrupts anyone. This stage waits for the daily summary.

TASKS THAT PERSIST UNTIL CLOSED

CLAIM Emma: retention of \$640

THE OFFICE Due: On the release date

The retention release date has arrived. Send the retention claim from the saved template with the claim attached, and note it on the card. When it is paid, mark it paid by hand, which closes the card.

The first fifteen minutes, and the owner told

A lead has landed on the commercial board. Nobody has rung them yet.

Routed here on property type, factory or farm, or moved here by hand when the message mentions a tender, a builder, or an area no house has. The text acknowledgement is the same as residential. The email is not: it asks for the five things that make the scoping call useful and mentions insurances and SWMS, because the person reading it will need them. The owner gets a text and an email the moment it lands. The office still makes the first call within fifteen minutes. Someone who wants a quote goes to Quoting, where the owner usually rings them for more detail before pricing it.

MOVES ON WHEN

They are rung, and either answer or do not

FLAG IT AFTER

15 minutes to the first call

WHERE THE SALE IS

Still winning the job

THE MOMENT THEY ENQUIRE

Within 2 minutes · Enters New Lead

Sends once. Sent straight away.

Fires before anyone has looked at the lead, so it promises only what automation can guarantee: that a person will ring.

Immediately · Enters New Lead on the Commercial board

Sends once. The SMS acknowledgement X-ACK-01 goes too. Sent straight away.

Your enquiry, Daniel

We will call to scope it. Five things that make that call useful.

INBOX

From **Rachael at SprayIT Solutions** <info@sprayitsolutions.com.au>
To **Daniel Kerr** <d.kerr@example.com>

SUBJECT

Your enquiry, Daniel

Hi Daniel,

Thanks for the enquiry regarding **Factory or warehouse at 3175**.

We will call you shortly to scope it. Before that call it helps to know:

- Approximate area, in square metres
- What the space is used for, and any temperature requirement
- Whether the building is occupied or operating during the works
- Programme dates, if they are set
- Who else needs to be involved in the decision

We work **Australia-wide** and hold current insurances and SWMS documentation, which we can supply on request.

Rachael Angus
SprayIT Solutions
0428 26 36 26

Commercial buys differently. These are longer, plainer and carry no urgency devices, because the reader is a facility manager or a builder with a file open, not a homeowner.

ALERTS THAT INTERRUPT

ACT NOW

Commercial enquiry · The owner, by SMS and email

An enquiry has landed on the Commercial board. It carries the company as well as the contact. The owner is told straight away; the office still makes the first call.

Fires when: a commercial enquiry has come in.

COMMERCIAL LEAD: Daniel Kerr, Nordic Cold Storage
Factory or warehouse / 3175
0433 987 654

ACT NOW

New enquiry · The office, by Email and in-app

A website enquiry has been created and assigned to the office. The message carries their name, number, property type, what needs doing, timeframe, postcode and where they came from, so it can be acted on without opening the CRM.

Fires when: a new enquiry has just come in.

NEW LEAD: Daniel Kerr
0433 987 654
Factory or warehouse / Roof or ceiling, Walls
3 months or more / 3175
Source: linkedin

ACT NOW

New lead not called after 15 minutes · The office, by Email and in-app

A new lead has been on the board for fifteen business minutes and no call has been logged against it. It names the lead and the time it arrived, so whoever picks it up can ring straight away.

Fires when: a new lead has waited 15 minutes without a call.

NOT CALLED YET: Daniel Kerr, 0433 987 654
Arrived 9:40am. Fifteen minutes and no call logged.
Ring them now.

TASKS THAT PERSIST UNTIL CLOSED

CALL Daniel: commercial lead, Nordic Cold Storage**THE OFFICE** Due: 15 minutes

Ring the commercial lead within 15 minutes, twice back to back if needed. Put the company, site address and a site contact on the card. They want a quote: move the card to Quoting, which hands it to the owner. No answer to either call: Dial 1.

Escalation. The same ladder as residential: 15 minutes with no call logged, an email to the office. 1 hour, a text and an email to the owner. Next morning, top of the daily summary until a call is logged.

Two calls, then a text

Rung twice back to back with no answer. A text has gone.

The same as residential. A facilities manager on site is no more likely to pick up an unknown number than a homeowner, and just as likely to reply to a text. About ten seconds after the card lands here a text goes, and a second round of calls follows later the same day.

MOVES ON WHEN

They answer or reply, or the second round of calls gets nothing

FLAG IT AFTER

End of the same day

Most people will not answer a number they do not know, and most of them will reply to a text. So it goes about ten seconds after the second call, while the missed calls are still on their screen.

BEHIND THE SCENES · WHAT YOUR TEAM SEES

ALERTS THAT INTERRUPT

ACT NOW

Inbound reply · Whoever owns the job, by Email and in-app to the office, or SMS and email to the owner

A customer has replied by text. Every sales sequence on that contact pauses the moment it arrives, so nothing automatic talks over a live conversation.

Fires when: a customer has replied to a message.

REPLY from Daniel: "Yes, Thursday works. Call after 10."

TASKS THAT PERSIST UNTIL CLOSED

CALL Daniel: second round of calls

THE OFFICE Due: Later the same day

Second round of calls, at a different time of day from the first. Ring twice back to back again. If they answer, move the card on as from New Lead. If not, move it to Dial 2, which starts the follow-up emails.

Three emails, then an honest close

Two rounds of calls with no answer. The emails are running.

The same three emails as residential, on days 2, 4 and 7, with the booking link on day 4. Commercial contacts are slower to answer, so a reply after the close-off is common: if one comes, the card is reopened rather than started again. A facilities manager who books the phone call gets the same confirmation and reminders as a homeowner.

MOVES ON WHEN

They reply or book a call, or day 7 passes with nothing

ALERTS THAT INTERRUPT

ACT NOW **Inbound reply** · Whoever owns the job, by Email and in-app to the office, or SMS and email to the owner

A customer has replied by text. Every sales sequence on that contact pauses the moment it arrives, so nothing automatic talks over a live conversation.

Fires when: a customer has replied to a message.

REPLY from Daniel: "Yes, Thursday works. Call after 10."

GOOD TO KNOW **Phone call booked** · Whoever owns the job, by Email and in-app to the office, or SMS and email to the owner

Somebody has booked a phone call from the day 4 email or the website. It is in the diary and the confirmation has gone, so the point of the alert is to read their enquiry before ringing.

Fires when: a customer has booked a phone call.

BOOKED: Daniel, Wednesday 1 October, 8:00am.
Read the enquiry before the call.

HEADS UP **Phone call or inspection cancelled** · Whoever owns the job, or the owner for an inspection, by Email and in-app to the office, or SMS and email to the owner

A booked phone call or site inspection has been cancelled. A phone call goes to whoever owns the job; an inspection goes to the owner, who rebooks it. Nothing is rebooked automatically.

Fires when: a customer has cancelled a phone call or a site inspection.

CANCELLED: Daniel, Phone call with SprayIT Solutions, Wednesday 1 October, 8:00am.
Ring them to rebook.

TASKS THAT PERSIST UNTIL CLOSED

CALL Daniel: one more try

THE OFFICE Due: Day 4

One more call on the day the booking email goes. They have had a text and two emails, so keep it short: you are ringing about their enquiry and can talk whenever suits. Log it on the card either way.

Scope it, then price it

They want a proposal. It is waiting on the owner to scope and price it.

Commercial quotes almost always need more than the first call, so the card is assigned to the owner, who gets a text and an email, rings them for the detail, and builds the proposal: product, thickness, access, plant, staging and WHS. The value stays at zero until a real number exists, because commercial ranges from small to millions. Sending the proposal from the quote tool moves the card to Quote Sent by itself.

MOVES ON WHEN

The proposal is sent, or they defer, ask to be rung later, or go elsewhere

FLAG IT AFTER

5 business days

WHERE THE SALE IS

Still winning the job

BEHIND THE SCENES · WHAT YOUR TEAM SEES

ALERTS THAT INTERRUPT

ACT NOW

Assigned to you · Whoever it is assigned to, by SMS and email to the owner, email to the office

A card has been assigned to someone, or a task has been created for the owner. The commonest case is the office handing a lead to the owner in Quoting. It names the job and what is waiting, so it can be dealt with that day. Where another alert already carries the same news, this one does not fire again.

Fires when: a job or a task has been handed to you.

ASSIGNED TO YOU: Nordic Cold Storage, Dandenong South, 0433 987 654
QUOTE Daniel: scope and send the proposal

TASKS THAT PERSIST UNTIL CLOSED

QUOTE Daniel: scope and send the proposal

THE OWNER Due: 5 business days

Ring them for the detail: who decides, roughly how big, what the space is used for, whether it is operating during the works, and the programme. Work out product, thickness, access, plant, staging and WHS, then send the proposal from the quote tool, which moves the card to Quote Sent.

Priced, specified, documented

A priced proposal is with them, with an online accept button.

The proposal email states scope, area, product and reference in four lines, links to the online version with its accept button, and offers to reshape the numbers for internal approval. A purchase order or a signed acceptance works as well as the button. A week later one email asks whether they need anything further and whether there is a decision date. At day 21 one email offers three answers to pick from: still live, deferred, or gone elsewhere. Any reply stops the follow-up.

MOVES ON WHEN

**Accepted, declined, deferred, or quiet

REPLY from Daniel: "Yes, Thursday works. Call after 10."

TASKS THAT PERSIST UNTIL CLOSED

CHECK-IN Daniel: 8 Ordish Road, Dandenong South VIC 3175

THE OWNER Due: Quarterly

Quarterly check-in on a future-budget project. Offer to refresh the proposal against current material pricing, and ask which quarter to come back in if it has moved.

The go-ahead, and the paperwork

The client has accepted, online, in writing or verbally.

A written acceptance, whether the accept button, a signed acceptance or a purchase order, marks the job Won. A verbal yes also comes here, but the job stays Open until the paperwork lands, because commercial work is not counted on a verbal. One email thanks them and asks for what is needed to book the works in: the purchase order if their business issues one, a site contact, induction requirements and access windows. The owner and the office are told. An add-on or variation quote on a job already under way does not bring the card back here.

MOVES ON WHEN

An inspection is needed, or the works are ready to book

FLAG IT AFTER

1 day, or 14 days waiting on a purchase order

WHERE THE SALE IS

The job is won here

ON ACCEPTANCE

Not sent for an add-on or variation quote on works already under way.

 **EMAIL** **Immediately** · Enters Quote Accepted on the Commercial board

Sends once per job. Not sent for an add-on quote. A weekly task chases the purchase order where one is needed. Sent during business hours.

RA

Thanks for the go-ahead, 8 Ordish Road, Dandenong South VIC 3175

INBOX

To book the works in we need four things. Programme confirmed within two working days.

To **Daniel Kerr** <d.kerr@example.com>

SUBJECT

Thanks for the go-ahead, 8 Ordish Road, Dandenong South VIC 3175

Hi Daniel,

Thanks for accepting P-0318 for 8 Ordish Road, Dandenong South VIC 3175. To book the works in, we need:

- A purchase order, if your business issues one
- A site contact and their mobile
- Induction requirements for the crew
- Access windows, and any shutdown or quiet periods

Once those are with us we confirm the programme within two working days. If you accepted online and your business does not use purchase orders, the first line does not apply.

Rachael Angus
SprayIT Solutions
0428 26 36 26

The thank-you and the paperwork in one email, because a facilities manager wants the list, not a card.

ALERTS THAT INTERRUPT

WIN **Quote accepted** · The owner and the office, by SMS and email to the owner, email and in-app to the office

A card has reached Quote Accepted, from the accept button or moved by hand. It names the job, the value and the option chosen, and it is the signal to decide on an inspection and book the install date. Add-on quotes on a job already under way do not fire it.

Fires when: a customer has accepted a quote.

QUOTE ACCEPTED: Nordic Cold Storage, Dandenong South, \$186,000
Option: Option B, closed cell, roof underside
Next: inspection or install date.

TASKS THAT PERSIST UNTIL CLOSED

CHASE Daniel: purchase order

THE OFFICE Due: Weekly, until it lands

A verbal yes with no purchase order yet. Chase it weekly. The job stays Open until the paperwork arrives, so this is the task that turns a promise into committed work.

NEXT Daniel: inspection or booking

THE OWNER Due: Same day

The customer has accepted. Check the option they chose is on the card, then decide the next step: move the card to Inspection Required if something needs checking on site first, otherwise to Booking Required so the install date can be booked.

Boots on site, before the works are booked

The client has accepted, and the site needs a look before the works are booked.

Only after acceptance, and only where something needs checking before the dates are set. A commercial visit needs more than an address: the confirmation asks for induction requirements, PPE beyond standard, access arrangements and a site contact, and offers the insurances and SWMS in advance for their records. Our own people attend, so there is nothing here about anyone not turning up. A cancellation tells the owner, who rebooks it.

MOVES ON WHEN

The visit is done: Booking Required, or
Lost if the works cannot be done

FLAG IT AFTER

5 days to book the visit

WHERE THE SALE IS

Won, job underway

Site inspection confirmed, Wednesday 8 October, 7:30am

Hi Daniel,

Confirmed for Wednesday 8 October, 7:30am at 8 Ordish Road, Dandenong South VIC 3175.

Please let us know before the visit:

- Site induction requirements, and how long they take
- PPE beyond standard
- Access arrangements, including any permits or escorts
- A site contact and mobile for the day

We will bring insurances and SWMS. If you need those in advance for your own records, reply and we will send them through.

If that is not right, ring us on 0428 26 36 26 and we will sort it out.

SprayIT Solutions
1300 177 729

Used for the phone call and the site inspection. The appointment title says which.

ALERTS THAT INTERRUPT

HEADS UP

Phone call or inspection cancelled · Whoever owns the job, or the owner for an inspection, by Email and in-app to the office, or SMS and email to the owner

A booked phone call or site inspection has been cancelled. A phone call goes to whoever owns the job; an inspection goes to the owner, who rebooks it. Nothing is rebooked automatically.

Fires when: a customer has cancelled a phone call or a site inspection.

CANCELLED: Daniel, Phone call with SprayIT Solutions, Wednesday 1 October, 8:00am.
Ring them to rebook.

TASKS THAT PERSIST UNTIL CLOSED

BOOK Daniel: site inspection

THE OWNER Due: 2 days

Book the site inspection in the inspection calendar from the card, at a time that suits the customer. Confirm the address and access to the areas being sprayed. The confirmation and the morning text go by themselves.

ATTEND 8 Ordish Road, Dandenong South VIC 3175: inspection

THE ESTIMATOR Due: On the date

Attend the visit with insurances and SWMS. Before you leave, record on the card: the area in square metres, the foam type, access notes, induction needs, and anything that will slow the crew down. Then move the card to Booking Required, or close it as Lost.

Set the programme

Accepted. The works dates need booking in the calendar.

The owner sets the start and finish dates with the client and books them in the install calendars, one per vehicle: the InjectaCore rig, the van, the Fuso truck and the Mercedes rig. Larger works often run several days and use two rigs on different days, so each block is booked in the right vehicle's calendar. Long lead times are normal here: works booked three months out still get any deposit invoice only two weeks before the start. The first booking moves the card to Job Booked and sends the mobilisation email.

MOVES ON WHEN

The works are booked in the calendar

FLAG IT AFTER

2 business days

WHERE THE SALE IS

Won, job underway

No automated message at this stage. This one is a conversation, and an email from a workflow would be noise in it. What the team does here is below.

BEHIND THE SCENES · WHAT YOUR TEAM SEES

ALERTS THAT INTERRUPT

Nothing here interrupts anyone. This stage waits for the daily summary.

TASKS THAT PERSIST UNTIL CLOSED

BOOK Daniel: works dates

THE OWNER Due: 2 business days

Agree the start and finish dates with the client, then book each block in the calendar for the vehicle doing it, with the crew. Book it in the platform first, because the booking sends the mobilisation email and sets up the reminders. It then shows in the Apple calendar too.

Inductions, SWMS, access, and confirmed before the start

The works dates are booked.

The booking sends the mobilisation email: dates, crew, SWMS, insurances and the crew list for induction, and four things back from the client, the last of which matters more than it sounds: the area has to be clear of other trades during application and cure. Works booked more than six weeks ahead get an email a month before asking whether the programme still holds, because a builder's programme often slips. Seven days and 48 hours before the start, the site contact gets the same Yes or No reminders as residential. A No tells the team, and the crew is moved by a person. Each site morning the site contact gets a text naming the lead on the day. On staged jobs a weekly progress email goes on Fridays from a template, filled in by hand, and progress claims go per the programme.

Works booked: 8 Ordish Road, Dandenong South VIC 3175

Hi Daniel,

The works at 8 Ordish Road, Dandenong South VIC 3175 are booked.

Start **Monday 3 November**
Completion **Friday 21 November**
Crew **DJ**
Reference **PO-77812**

Attached: SWMS, insurances, and the crew list for induction.

We need from you:

- Induction booked for the crew before the start date
- Confirmed access and any permits
- Power and water availability on site
- Confirmation the area will be clear of other trades while we spray

That last one matters more than it sounds. The area has to be free of other trades during application and cure.

You will get a reminder 7 days and 48 hours before the start, with a one-tap way to confirm the date still works.

SUBJECT

A month to go: still on track for Monday 3 November?

Hi Daniel,

We are booked to do the work at 8 Ordish Road, Dandenong South VIC 3175 on Monday 3 November, about a month from now.

Is that still on schedule at your end?

- Yes, still on track: [yes link](#)
- No, things have moved: [no link](#)

If it has moved, a month of notice lets us find you a better date and put the crew on other work. If you tap No, we will ring you to rearrange.

SprayIT Solutions**1300 177 729**

Glenn raised this on the call, for jobs booked months out, where a builder's programme often slips. Easy to drop if it is not wanted.

SEVEN DAYS AND 48 HOURS BEFORE

**7 days before the job** · Job upcoming

Cancelled if the booking is cancelled. Re-queued if the date moves. Skipped if the job was booked less than 7 days out. Sent during business hours.

Progress claim CL-0318-1

Hi Daniel,

Progress claim CL-0318-1 is attached for works at 8 Ordish Road, Dandenong South VIC 3175.

Claim covers [stage or percentage]

Terms [payment terms]

Supporting photos and any signed variations are included, with the accepted quote and purchase order PO-77812 for reference.

SprayIT Solutions

1300 177 729

Needs Glenn: payment terms for commercial work, and whether progress claims follow a percentage, a milestone, or a monthly cycle.

CREW QUICK-SEND

Manual. One tap from the mobile app. Sent straight away.

Not automated. A saved snippet the crew can send from the app in one tap, because the alternative is a customer standing at the window at 7:30 wondering.

BEHIND THE SCENES · WHAT YOUR TEAM SEES

ALERTS THAT INTERRUPT

ACT NOW

Customer cannot make the booked date · The owner and the office, by SMS and email to the owner, email and in-app to the office

A customer tapped No on one of the reminders before the job. It names the job, the date and the address. Nothing is rescheduled automatically: the team rings the customer, agrees a new date, and moves the crew and the rig by hand.

Fires when: a customer has said the booked date no longer works.

CANNOT MAKE IT: Daniel Kerr, 0433 987 654
Booked Monday 3 November, 8 Ordish Road, Dandenong South VIC 3175
Ring them today. Crew and rig need moving by hand.

TASKS THAT PERSIST UNTIL CLOSED

INDUCT crew: 8 Ordish Road, Dandenong South VIC 3175

THE CREW LEAD Due: Before start

Get the crew inducted before the start date. Site inductions take longer than anyone plans for, and a crew turned away at the gate costs a full day.

SWMS 8 Ordish Road, Dandenong South VIC 3175: issue and confirm receipt

THE OWNER Due: Before start

Issue the SWMS and get written confirmation it has been received and accepted. The crew does not start without it, and on most sites the principal contractor will not let them on without it either.

RESCHEDULE Daniel: cannot make Monday 3 November

THE OWNER Due: Same day

The customer tapped No on a reminder. Ring them today, agree a new date, then move the booking in the install calendar and move the crew and the rig to match. Nothing is rescheduled automatically. The reminders re-queue against the new date.

UPDATE Daniel: weekly progress

THE OWNER Due: Every Friday while live

Friday progress email from the saved template. Fill in three lines: what was completed this week, what is next, and what you need from them. Attach the week's photos.

CLAIM 8 Ordish Road, Dandenong South VIC 3175: progress claim

THE OWNER Due: Per milestone

Issue the progress claim for the completed stage, put its invoice number on the card, and attach the photos, any signed variations, the accepted quote and the purchase order.

The deposit, where one applies

The deposit invoice is out. The works are booked and waiting for their start.

Many commercial jobs on a purchase order take no deposit and skip this stage. Where one applies, usually for special-order foam, the rule is the same as residential: a draft is prepared two weeks before the start, with the accepted quote and the purchase order attached, and the owner checks it and sends it. It is due 7 days before for special-order foam and 1 business day before for stock open cell. If it is unpaid at 4pm on the due date, a text asks the client for the remittance and the team is told in time to reassign the crew.

MOVES ON WHEN

The works are marked complete

FLAG IT AFTER

The deposit due date

WHERE THE SALE IS

Deposit for your job on Monday 3 November

INBOX

Deposit invoice attached, due Monday 27 October. Your accepted quote is attached too.

SI

From **SprayIT Solutions** <info@sprayitsolutions.com.au>
To **Daniel Kerr** <d.kerr@example.com>

SUBJECT

Deposit for your job on Monday 3 November

Hi Daniel,

Your deposit invoice is attached for the work booked at 8 Ordish Road, Dandenong South VIC 3175 on Monday 3 November.

Deposit **\$18,600**

Due **Monday 27 October**

Your accepted quote is attached as well. It carries the terms and conditions.

Most deposits are due the business day before the job. If your foam is a special order, the deposit is due a week before, because that material is made and shipped for your job.

Payment details are on the invoice. When it lands we send a one-line confirmation, so there is no need to ring and check.

SprayIT Solutions
1300 177 729

Never at booking. A draft is prepared two weeks before the install date, which is when Glenn said on the call he generally sends deposit invoices, and the owner checks it and sends it. A job booked months ahead never sits on an unpaid invoice.

UNPAID AT 4PM ON THE DUE DATE

4:00pm on the due date · Deposit unpaid at its due date

Sends once. Not sent if the deposit is marked paid before 4pm. Sent during business hours.

No reminder before the due date: Xero already sends its own. This goes only when the deposit is actually late, at the same moment the team is told, so nobody has to type it.

WHEN IT LANDS

 **Immediately** · Deposit invoice marked paid

Sends once. Only on jobs where a deposit applies. Sent during business hours.

Silence after a payment is the thing customers hate most. This is one line and it stops the "did you get it?" call.

ALERTS THAT INTERRUPT

WIN **Deposit received** · The owner and the office, by SMS and email to the owner, email and in-app to the office

A deposit invoice has been marked paid. The customer has had a one-line confirmation. On special-order foam this is the signal to order the material, which is only ordered once the deposit lands.

Fires when: a deposit has arrived.

DEPOSIT IN: Daniel, \$18,600. Job on Monday 3 November is secure. Special order? Order the foam now.

HEADS UP **Deposit unpaid at its due date** · The owner and the office, by SMS and email to the owner, email and in-app to the office

A deposit has reached 4pm on its due date without being paid. The customer has just had a text asking for the remittance. It names the job, the amount and the install date, so the owner can decide in time whether the crew holds the date or goes to another job.

Fires when: a deposit is due today and has not arrived.

DEPOSIT UNPAID: Nordic Cold Storage, Dandenong South, \$18,600
Due Monday 27 October. Job booked Monday 3 November.
The customer has been texted. Decide whether the crew holds.

TASKS THAT PERSIST UNTIL CLOSED

INVOICE Daniel: check and send the deposit invoice

THE OWNER Due: 2 business days

A draft deposit invoice is ready, made from the accepted quote with the quote and any purchase order attached. Check the amount, the due date and the payment terms, then send it. Sending it emails the customer and moves the card to Deposit Requested. Nothing is sent until you do.

CHASE Daniel: deposit unpaid

THE OWNER Due: On the due date, if unpaid

The deposit was due today and has not landed. The customer has had a text asking for the remittance. Check for a reply; if it will not arrive in time, move the crew to other work and tell the customer.

Works complete, claim, then close-out

The works are complete. The final claim is being checked and sent.

The crew marks the works complete once the photos and signed variations are on the card. A short note confirms the works are done and offers a walk-through for their handover. A draft final claim is prepared with its payment schedule, the accepted quote and the purchase order attached, and the owner checks it and sends it. The close-out pack, with photos by area, product data and the certificate of completion, goes only when the final claim is paid. The day after payment, a thank-you asks for a reference: a phone call to a future client of similar scale. The owner decides on the review task whether a Google review is asked for, and repeat commercial clients are set to No.

MOVES ON WHEN

The final claim is paid

TASKS THAT PERSIST UNTIL CLOSED

PHOTOS 8 Ordish Road, Dandenong South VIC 3175: this stage

THE CREW LEAD Due: End of each stage

Photograph each completed stage before moving on. The photos are the evidence behind each claim and they go into the close-out pack, so they are needed at the end of every stage, not at the end of the job.

VARIATIONS 8 Ordish Road, Dandenong South VIC 3175: record and get signed

THE CREW LEAD Due: As they happen

Record every variation agreed on site and send it from the variation document for signature the same day. An unsigned variation on a commercial job is an argument waiting to happen at the final claim.

INVOICE Daniel: check and send the final invoice

THE OWNER Due: 2 business days

The job is marked complete and a draft final invoice is ready: the balance after any deposit, with the payment schedule and the accepted quote and any purchase order attached. Adjust it for the area actually sprayed, with a variation invoice or a credit, then send it. Sending it starts the payment reminders.

REVIEW Daniel: ask for a Google review?

THE OWNER Due: 7 days

The job is marked complete. Leave Ask for Google review on Yes, or set it to No on the contact for a job that had problems or a repeat commercial client such as Bondor or Australian Housing. Yes sends one text four weeks after the job. No sends no review request and no referral email.

CHASE Daniel: claim overdue

THE OFFICE Due: Day 30

Thirty days on an unpaid claim. Commercial payment runs are slow and usually fine, so ask the accounts contact where it sits in the run rather than chasing the site contact.

SEND Daniel: job report and certificates

THE OWNER Due: Same day as payment

The final invoice is paid. Send the job report from the saved template today, with the photos and the certificate of completion attached, then stamp Job report sent on the card. It never goes before the invoice is fully paid.

REFERENCE Daniel: ask, and record the answer

THE OWNER Due: Day 7

Ask whether they would take a reference call from a future client of similar scale, and write the answer on the card. A facilities manager's word is worth more on a tender than any number of homeowner reviews.

The money held back

A retention is being held, usually for six to twelve months after completion.

Larger commercial jobs often have part of the payment held back for six to twelve months after completion. Without a stage it is easy to forget, because nothing happens for a long time. This stage is run by hand: the amount and the release date go on the card, a task lands on the release date to send the claim from a saved template, and the card closes when the money arrives.

SUBJECT

Retention release, 8 Ordish Road, Dandenong South VIC 3175

Hi Daniel,

The retention period on 8 Ordish Road, Dandenong South VIC 3175 ended on Friday 21 May 2027. Our claim for the retention of \$9,300 is attached, with the original invoice and your purchase order for reference.

If anything needs to happen before it is released, a defects inspection or a sign-off, tell us and we will arrange it.

Rachael Angus

SprayIT Solutions

0428 26 36 26

A retention can sit for six to twelve months, which is long enough to forget it. The task on the release date is what stops that.

BEHIND THE SCENES · WHAT YOUR TEAM SEES

ALERTS THAT INTERRUPT

Nothing here interrupts anyone. This stage waits for the daily summary.

TASKS THAT PERSIST UNTIL CLOSED

CLAIM Daniel: retention of \$9,300

THE OFFICE Due: On the release date

The retention release date has arrived. Send the retention claim from the saved template with the claim attached, and note it on the card. When it is paid, mark it paid by hand, which closes the card.

Whatever stage the card is in

Two messages and five alerts run regardless of where anyone is on either board. The missed-call text-back is the single highest-value automation in the whole build: for a trade business where the phone rings while someone is up a ladder, it is the difference between a lead and a competitor's lead. The out-of-hours reply sets an expectation instead of leaving a text unanswered until morning. Anything assigned to someone tells them, by text and email for the owner and by email for the office.

THE PHONE

 **Within 60 seconds** · Inbound call missed

Once per caller per day. Sent straight away.

For a trade business where the phone rings while someone is up a ladder, this is the single highest-value automation on the list.

OUT OF HOURS

 **Immediately** · Inbound SMS outside hours

Once per contact per day, not once per message. Sent straight away.

ALERTS THAT INTERRUPT

ACT NOW **Missed call** · The office, by Email and in-app

An inbound call to the business number went unanswered. The caller has already had an automatic text back, so this is the reminder that someone still owes them a call.

Fires when: someone rang and nobody picked up.

MISSED CALL: 0412 345 678 (Emma). Text-back sent. Ring them.

ACT NOW **Inbound reply** · Whoever owns the job, by Email and in-app to the office, or SMS and email to the owner

A customer has replied by text. Every sales sequence on that contact pauses the moment it arrives, so nothing automatic talks over a live conversation.

Fires when: a customer has replied to a message.

REPLY from Emma: "Yes, Thursday works. Call after 10."

ACT NOW **Negative review or complaint** · The owner, by SMS and email

A review under four stars, or a contact tagged as a complaint. It carries the rating and the reviewer, so the call can be made the same day.

Fires when: a review under four stars, or a complaint, has come in.

REVIEW 2 stars from A. Customer. Call them today.

ACT NOW **Automation failure** · The owner, by SMS and email

A workflow errored, or the website lead webhook returned a failure. It names the workflow and the contact. This is the only alert that means leads may be vanishing silently.

Fires when: something behind the scenes has stopped working.

WORKFLOW FAILED: Lead: Website intake on Emma Walsh. Webhook returned 500

ACT NOW **Assigned to you** · Whoever it is assigned to, by SMS and email to the owner, email to the office

A card has been assigned to someone, or a task has been created for the owner. The commonest case is the office handing a lead to the owner in Quoting. It names the job and what is waiting, so it can be dealt with that day. Where another alert already carries the same news, this one does not fire again.

Fires when: a job or a task has been handed to you.

ASSIGNED TO YOU: Emma Walsh, Mount Eliza, 0412 345 678
QUOTE Emma: write and send the quote

TASKS THAT PERSIST UNTIL CLOSED

RING BACK Emma: missed call

THE OFFICE Due: 30 minutes

A call came in and nobody answered. The caller already has a text saying someone will ring back, so this is a promise the team has made.

REPLY Emma: they messaged

WHOEVER OWNS THE JOB Due: 1 hour

A customer has replied, so every automatic message to them has paused. Answer from the conversations screen in the app, not your own phone, so the reply sits on their card and the pause holds.

A9 The whole pipeline in one view

Both boards use the same fourteen stages in the same order, so the whole business reads in one view: every open job, residential and commercial, stage by stage. The boards stay separate for the day-to-day work. The overview is for seeing all of it at once, and it is where the owner looks first on a Monday.

#	STAGE	RESIDENTIAL	COMMERCIAL & INDUSTRIAL
01	New Lead	A lead has landed. Nobody has rung them yet. Moves on when: They are rung, and either answer or do not	A lead has landed on the commercial board. Nobody has rung them yet. Moves on when: They are rung, and either answer or do not
02	Dial 1	Rung twice back to back with no answer. A text has gone. Moves on when: They answer or reply, or the second round of calls gets nothing	Rung twice back to back with no answer. A text has gone. Moves on when: They answer or reply, or the second round of calls gets nothing
03	Dial 2	Two rounds of calls with no answer. The emails are running. Moves on when: They reply or book a call, or day 7 passes with nothing	Two rounds of calls with no answer. The emails are running. Moves on when: They reply or book a call, or day 7 passes with nothing
04	Quoting	The office has spoken to them and they want a quote. It is waiting on the owner. Moves on when: The quote is sent, or they ask to be rung later, say not now, or go elsewhere	They want a proposal. It is waiting on the owner to scope and price it. Moves on when: The proposal is sent, or they defer, ask to be rung later, or go elsewhere
05	Quote Sent	A written quote is with them, with accept and decline buttons. Moves on when: They accept, decline, ask to be rung later, or go quiet past day 21	A priced proposal is with them, with an online accept button. Moves on when: Accepted, declined, deferred, or quiet past day 21
06	Follow-Up	A conversation is live and the customer has asked for a call at a later time. Moves on when: The callback happens and the card moves on	A conversation is live and the client has asked for a call at a later time. Moves on when: The callback happens and the card moves on
07	Nurture	A real job that is not happening now: not now, or not affordable yet. Moves on when: They come back: to Quoting for a fresh quote	A real project in a future budget cycle. Moves on when: It comes back: to Quoting for a refreshed proposal
08	Quote Accepted The job is won here	They have accepted a quote, online, by phone or with a purchase order. Moves on when: An inspection is needed, or the install date is ready to book	The client has accepted, online, in writing or verbally. Moves on when: An inspection is needed, or the works are ready to book
09	Inspection Required	They have accepted, and the site needs a look before the install is booked. Moves on when: The visit is done: Booking Required, or Lost if the job cannot be done	The client has accepted, and the site needs a look before the works are booked. Moves on when: The visit is done: Booking Required, or Lost if the works cannot be done
10	Booking Required	Accepted, inspected if needed, and ready for an install date in the calendar. Moves on when: The install is booked in the calendar	Accepted. The works dates need booking in the calendar. Moves on when: The works are booked in the calendar

#	STAGE	RESIDENTIAL	COMMERCIAL & INDUSTRIAL
11	Job Booked	An install date is booked in the calendar. Moves on when: The deposit invoice is sent, or the crew marks the job complete	The works dates are booked. Moves on when: The deposit invoice is sent, or the works are marked complete
12	Deposit Requested	The deposit invoice is out. The job is booked and waiting for its date. Moves on when: The crew marks the job complete	The deposit invoice is out. The works are booked and waiting for their start. Moves on when: The works are marked complete
13	Job Completed	The crew has marked the job complete. The final invoice is being checked and sent. Moves on when: The final invoice is paid	The works are complete. The final claim is being checked and sent. Moves on when: The final claim is paid
14	Retention Claim	Part of the payment is being held back until a defects period ends. Moves on when: The retention is paid	A retention is being held, usually for six to twelve months after completion. Moves on when: The retention is paid

A1 Set once, used everywhere

Your name, your number, your links and the way the work is described all come from this one table. Change a value here and every message that uses it changes with it, so a new phone number or a new booking link is a one-line edit rather than a hunt through fifty messages.

DETAIL	SPRAYIT SOLUTIONS	NOTES
Business name	SprayIT Solutions	Used in email
Business short name	SprayIT	Used in SMS, where characters cost money
Business phone	1300 177 729	The business line. The number on the Google listing and the website, and on invoices and confirmations.
Business phone international format	+611300177729	For tel: links
Contact name	Rachael Angus	Signs the customer messages. Handles about 99% of customer contact.
Contact first name	Rachael	The short form, where a full name reads stiffly
Contact mobile	0428 26 36 26	Rachael's mobile, confirmed by Glenn on the 2 Oct call. The number customers are asked to ring in messages.
Contact mobile international format	+61428263626	Rachael's mobile, confirmed by Glenn on the 2 Oct call. For tel: links.
Business email	info@sprayitsolutions.com.au	From address and reply-to. The sending domain needs SPF and DKIM before go-live.

A3 The 14 alerts that reach you

An alert is a request to do something. If nothing needs doing it goes in the morning summary instead. The office gets them by email, the owner by text and email. These are the only things that interrupt, so when one arrives, it matters.

#	ALERT	FIRES WHEN	TO	HOW
1	New enquiry Speed to lead is the whole game.	A new enquiry has just come in	The office	Email and in-app
2	Missed call The auto-reply already went. A person still has to ring back.	Someone rang and nobody picked up	The office	Email and in-app
3	Inbound reply A reply is a live conversation. Every sales sequence on the card pauses.	A customer has replied to a message	Whoever owns the job	Email and in-app to the office, or SMS and email to the owner
4	Phone call booked The diary changed.	A customer has booked a phone call	Whoever owns the job	Email and in-app to the office, or SMS and email to the owner
5	Phone call or inspection cancelled A hole in the day, recoverable if caught early. Inspections are rebooked by a person, because a free slot is not always a workable one.	A customer has cancelled a phone call or a site inspection	Whoever owns the job, or the owner for an inspection	Email and in-app to the office, or SMS and email to the owner
6	Commercial enquiry Different sale, and the owner wants to know immediately.	A commercial enquiry has come in	The owner	SMS and email
7	New lead not called after 15 minutes Time to first contact is the one number that moves everything else. Business hours only, so it pauses overnight.	A new lead has waited 15 minutes without a call	The office	Email and in-app
8	Quote accepted Triggers the next step: an inspection, or the install date.	A customer has accepted a quote	The owner and the office	SMS and email to the owner, email and in-app to the office
9	Deposit received Special-order foam is only ordered once the deposit lands, and the date is now secure.	A deposit has arrived	The owner and the office	SMS and email to the owner, email and in-app to the office
10	Negative review or complaint Reputation decays fast. A same-day call fixes most of them.	A review under four stars, or a complaint, has come in	The owner	SMS and email
11	Automation failure A silent failure means leads are vanishing. The platform will not tell you loudly, so this is built deliberately.	Something behind the scenes has stopped working	The owner	SMS and email
12	Customer cannot make the booked date A crew and a rig are booked around this job. The sooner a person knows, the sooner both can go to other work.	A customer has said the booked date no longer works	The owner and the office	SMS and email to the owner, email and in-app to the office
13	Deposit unpaid at its due date Special-order foam and a crew day are committed against this job. The due date is set early enough to reassign both.	A deposit is due today and has not arrived	The owner and the office	SMS and email to the owner, email and in-app to the office
14	Assigned to you Agreed on the call: anything handed to the	A job or a task has been handed to you	Whoever it is assigned to	SMS and email to the owner, email to the office

#	ALERT	FIRES WHEN	TO	HOW
	owner arrives by text so it is seen on site, and by email so it is still there that night.			

A4 Who does what

ROLE	AT SPRAYIT	LOOKS AFTER
OWNER	Glenn Angus	Writing and sending quotes, commercial work, booking install dates, checking and sending invoices, job reports, anything escalated
OFFICE	Rachael Angus	First response, calls, follow-ups, chasing payments. About 99% of customer contact.
ESTIMATOR	Glenn Angus	Site inspections, and the scoping call on commercial jobs
CREW_LEAD	Per job	The job day: running late text, photos, variations, marking the job complete

A5 When things send, and when they wait

Confirmations go straight away because the person is waiting for them. Reminders, follow-ups and anything marketing wait for business hours. Alerts follow the same shape, so nobody is woken at 2am by a lead that can wait until 7.

WHEN	ALERTS	TASKS	CUSTOMER MESSAGES
Monday to Friday, 7am to 6pm	All	Normal	Normal
Saturday, 8am to 2pm	Critical only: 1, 2, 6, 10, 11, 12	Held	Held
Outside those hours	None	Held	Held to the next window
Sunday and public holidays	None	Held	Held

A6 The rules every message follows

Transactional against marketing

Every message is tagged. TRANS is about an enquiry, appointment or job the person already has with us: no marketing consent needed and no unsubscribe required, though the sender is always identified. MKTG is promotional: it sends only when the person ticked the box on the form, and it always carries a working unsubscribe.

What the person actually agreed to

The form stores the exact consent wording, its version, the time and the page, and the CRM keeps that on the contact. Under the Spam Act 2003 the evidence is what someone was shown, not what the current form says, so it is never overwritten by a later submission.

Every SMS identifies the sender

Every text ends with the sign-off: Rachael, SprayIT Solutions. An unidentified SMS is the most common Spam Act failure and the easiest to avoid.

Send window

Outbound customer messages send between 8am and 8pm, Monday to Saturday, local time. Confirmations send immediately because the person is waiting for them. Chases and reminders wait for the window. The Do Not Call standard governs telemarketing calls rather than SMS to someone who enquired, so this is policy rather than law, and it exists because a 6am quote chase costs more goodwill than it earns.

Call recording

If assistant calls are recorded, callers are told at the start of the call. Victoria's rules on recording private conversations are strict, so this is a script requirement rather than a nice to have.

Prices come from a person, in writing

Nothing in the journey states a price, a lead time or a performance figure that has not been substantiated. The assistant is barred from quoting: a price comes from the team, in a written quote, after the job has been talked through, so it is never a guess that turns into a commitment.

Invoices are checked before they go

Deposit and final invoices are prepared automatically as drafts, from the accepted quote, and a person checks and sends each one. Nothing is charged to a card and no card details are stored.

A7 What goes live first

Not all at once. In the order of what earns the most, soonest, so the parts that catch leads are working while the rest is still being finished.

- 01 SYS-01** Missed call text-back. Highest return of anything here.
- 02 X-ACK-01, X-ACK-02, alerts 1 and 7** The two minute acknowledgement, the new lead email, and the 15 minute call timer.
- 03 DIAL-01 to 04** The tried-to-call text and the three Dial 2 emails, with the honest close.
- 04 Quoting, alert 14** The hand-over to the owner, by text and email, so no quote waits unseen.
- 05 R-QUOTE, R-FU-01 to 04, LOST-01** The quote with its accept button, the follow-up that converts quotes, and the goodbye.
- 06 X-ACC-01, X-ACC-02, JOB-01, JOB-02, REM-01 to 05** Acceptance, the booking, and the confirm reminders.
- 07 DEP-01 to 03, PAY-01 to 03** The draft deposit and final invoices for the owner to send, the deposit timing by foam type, and the late-deposit text.
- 08 JOB-04, JOB-05, RPT-01** The job day, the completion note, and the job report once the invoice is paid.
- 09 X-APPT, X-INSP** The phone call booking and the site inspection, used by a minority of jobs.
- 10 REV-01** The review ask, gated on Ask for Google review.
- 11 REM-06** The month-out check for jobs booked far ahead. Easy to drop.
- 12 NUR-01 to 04, REV-02, REV-03** Once there is a consented list worth mailing.
- 13 RET-01 and the commercial set** Last. That board moves slowly enough that a person writing the email is still viable meanwhile.

Automatic, but never automated. This is how SprayIT Solutions looks after people from the first two minutes.

Every word here is a starting point. The tone, the timing and the wording are all yours to change. Tell us what does not sound like you and we will change it.
